A very vibe and
captivating CD "Rainbow
Shadow". Reggie playing
electric bass is totally
convincing and engaging
with his ability to put over
melodies on the bass.

Headphone.Guru

For "Rainbow Shadow," the versatile
Washington embraces elements of jazz,
funk, blues and R&B and masterfully delivers
an intoxicating collection of hard-grooving
arrangements.

Excellent! Ça balance
chouette, on a envie
de danser avec Jef Lee
et Reggie et c'est plein
d'émotion. Ceci est le
volume 1. Vivement le
volume 2!

La Libre Belgique

The musicianship on the record is
simply staggering, and Reggie's
expressive bass lines become the
vocals of each track, singing out
melodic riffs that hit hard and hook.

Rock On Philly

Reggie Washington has
been a flexible electric
bassist who can easily
shift from slamming funk
to surging swing without
dropping a beat.
